Newsletter 1-2025

UHS-2025 a week later...

By Anton Schulz

In newsletter 1-2024 we announced UHS-2025 was planned to take place 23rd to 26th of October 2025. Due to logistical problems regarding accommodation in connection with UHS-2025, we have been forced to postpone the event. Fortunately, both Klosterhallen and Løgumkloster Refugium can accommodate us just a week later. So we can announce:

UHS-2025 takes place 30/10 to 2/11

UHS 2025 will be held in the same facilities that formed the physical framework for UHS2021, which indeed was a memorable event as it was the first attempt to establish an international event solely focusing on unique hand built sports and race cars. Former designer at Jaguar Cars Ltd, Keith Helfet, who was a guest lecturer on our festival expressed that he was not aware that this particular concept existed elsewhere in the world. He also praised us for the result as he found the initiative both fascinating and remarkable.

After UHS-2021, Kieth Helfet generously agreed to make himself available as a patron for the club initiative Club-UHS, and precisely Club-UHS will be the focal point for generating support and interest for UHS2025.

Therefore, at this point, a thank you must be given to Kieth Helfet for his support for the initiative.

Keith Helfet at UHS2021

Support UHS-2025 through a Club-UHS membership

UHS is now introducing Club-UHS which is for everyone with an interest in the theme of "unique hand-built sports and racing cars".

The purpose of Club-UHS is to form a new and autonomous online forum for members of Club-UHS and at the same time supporting the work of planning UHS2025.

Take advantage of the opportunity to become a member of Club-UHS in 2025. You can choose to be a personal member or a company member.

You can register both as personal and business member at UNIQUEHANDBUILT.COM

Newsletter 1-2025

”Dan Suenson from Aquila Racing Cars will be one of the lecturers at UHS-2025

It's a pleasure to announce, that the owner of Aquila Racing Cars A/S in Denmark has agreed to perform a lecture at UHS-2025.

Dan Suenson is highly respected as a craftsman, fabricator, manufacturing designer and educator in the racing community, but he has also taught at technical universities in both England and Denmark.

At UHS-2025, Dan will tell the story of Aquila Racing Cars, including the design phase and production of both the Aquila CR1 and Aquila Synergy, but he will also talk about Aquila's latest activities with Aquila Formula 1000 racing series and Aquila's involvement in the rebirth of the venerable Danish motorcycle brand Nimbus.

Aquila Racing Cars also participated in UHS-2021, where we showed a CR1 and a Synergy race car, and you can read much more about it in the theme article that UNIQUEHANDBUILT.COM published in newsletter 2-2021 as well as in "UHS-2021 the magazine."

Here Dan Suenson stands with the Nimbus bicycle, which Aquila is a co-developer of. The frame is designed, tested and manufactured at Aquila.

Above: The Nimbus bike frame being tested at Aquila Racing Cars.

Above right: Nimbus now reinvented as an electric motorcycle designwise draws many parallels to the original Nimbus motorcycle.

Right next: Example of the original Nimbus Motorcycle from the thirties.

Newsletter 1-2025

UHS-2025 - a unique opportunity to meet likeminded

Prior to UHS-2021 we had a promising communication with manufacturers within the scope of race- and sports cars, as we thought that both the event and the manufacturers could benefit from their participation in an event solely focusing on their product niche.

At that time some naturally had a certain reticence with the regard to participate in UHS-2021, however no one rejected the idea categorically. Some even said that they would seriously consider their participation if we would repeat the event sometime in the future.

That's exactly what we will.

Therefore we this time will send invitations to two segments namely the manufacturers of hand built race- and sports cars or parts for these, as well as to individuals building projects for their own use. Our aim is to have a 50/50 pct. representation from these two segments.

We hope you - individual or company - will catch this opportunity to participate in a unique event for enthusiasts with passion for unique hand built sports cars. Go to uniquehandbuilt.com for more details and registration for UHS-2025.

UNIQUEHANDBUILT.COM

We have acquired the domain uniquehandbuilt.com, which will be our official domain going forward. If you type the domain in your browser, you will get to our current UHS website, which contains background material such as newsletters, articles and videos produced in the run-up to UHS2021.

The site is the primary focal point for all communication for UHS and thus also for UHS2025.

However, the site also contains facilities that can support a social network as an alternative to Facebook. As a guest, you can access the page and read about UHS, but as a member of Club-UHS you get access to the members' area and thus more facilities. As a Club-UHS member, you can connect to other members, form groups, write your own blogs, participate in discussions, share photos and videos.

Business members also get advertising space on our website, as well as the opportunity to create their own webspace and webshops in a marketplace structure.

All this leads to a much better opportunity to create a social network with a focus on our focus point - unique hand built sportscars - but without the many distracting elements that we are exposed to on Facebook and other social media.

Let's build a new on-line society and a social platform for unique handbuilt sports- and race cars.

Newsletter 1-2025

Invitations going out now!

Invitations to potential UHS-2025 participants are going out right now.

Last week we sent the first batch of 10 invitations to potential participants in UHS-2025, and many more will be sent this and next week.

For the sake of recognition, UNIQUEHANDBUILT.COM retains the design with leather and carbon fiber graphic elements that we used in our publications in connection with UHS-2021. This also applies to our invitation to UHS-2025.

As mentioned, the invitations are going out to both individuals and companies that produce hand build sports and racing cars for a developing market.

- Preferred Partner invitations

The business recipients of the invitation will also receive an invitation to become "Preferred partners". The partner programme includes benefits in the form of advertising space in our newsletters, our website, and full page advert in the event magazine and.

Have a presentation article

Preferred partners will also be able to have presentation articles created and published in our newsletters. Simply send us an inquiry about preferred partnership and UNIQUEHANDBUILT.COM will contact your company for an agreement at the email address schulz@asconbs.com

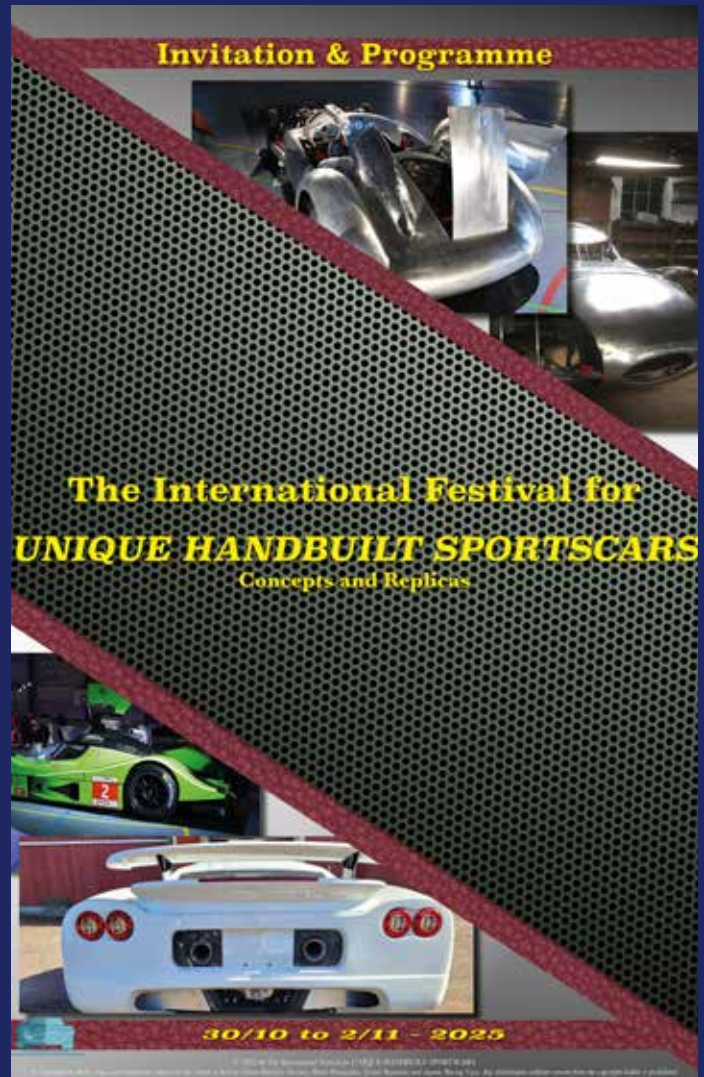

Have a your news relayed

The more news and information we can share, the better forum we are. Therefore, I would also like to encourage you to either share your news, press releases or project developments with all of us in the hand building community.

Design and construction projects are interesting subjects for all of us, and if you have a professionally manufactured product relevant to the hand building community, there is a sales opportunity by sharing your news with us (see example to the right).

Example of newsrelay from Gregson Polska (UHS-2021 participant)

Sign up for a personal Club-UHS membership

With a personal membership of Club-UHS at **only 20 Euro** you support the work of establishing UHS-2025, but you also get several other benefits with your membership.

For example you get access to all newsletters and magazines on uniquehandbuilt.com.

Let's build the Club-UHS social network

Furthermore, you get a profile on uniquehandbuilt.com. Let's build a social network solely with a focus on unique hand-built sports- and racing cars away from the usual social media.

With a profile, you can connect with other members, you can write blocks about you activities, you can share images of your work. Everything categorised in a way, which makes it easy for other members to search for specific themes.

Go to UNIQUEHANDBUILT.COM, click the sign-up link under the Club-UHS menupoint to register you membership of Club-UHS.
